Landing-Fee Records: CSI Aviation / ICE Charters Serviced by Signature

San Diego · April–June 2025 · Consolidated from Signature Aviation monthly Ground Handling & Support Services landing-fee reports (FBO #11261).

Signature Aviation's monthly landing-fee reports for its San Diego operation list every aircraft serviced. The charter operator **CSI Aviation Services, Inc.** — recorded under the tail/operator code “**CSIICE**”, flying Boeing 737 aircraft — is the ICE deportation-charter contractor. These entries show Signature billing for ICE charter landings on a recurring basis.

Month (2025)	CSI/ICE charges	Reversals	Net ICE landings	Net fees billed
April	11	2	9	\$5,656.68
May	17	2	15	\$9,546.10
June	19	1	18	\$11,313.36
Total	47	5	42	\$26,516.14

“Reversals” are negative correcting entries in the source reports (e.g., re-bookings); “net ICE landings” subtracts them. Figures computed directly from the monthly reports.

In each month, CSI Aviation (ICE) charter landings are among the most frequent recurring entries in Signature's San Diego book — consistent, scheduled business rather than incidental traffic. The same “CSIICE” operator code appears across all three months.
